Linkedin/maximonahuellopez | GitHub/maximolpz

QA Automation Engineer with over 10 years of experience combining manual and automated testing in web, API, and mobile environments. I've led QA teams, developed frameworks from scratch, and improved coverage in CI/CD pipelines with Cypress, Playwright, Postman, JMeter, among others. Focused on delivering efficiency and quality in agile environments.

WORK EXPERIENCE

Epam | QA de Automatización APIs

June 2024 - Present

Development and execution of automated tests for REST APIs.
Implementation of tests in Postman and RestAssured (Java).
Reporting bugs in Jira and creating internal technical documentation.
Achievement: 40% reduction in regression testing time.

Cybele Software | QA de Automatización Web

February 2024 - June 2024

Maintained automated back-end tests with Postman and Cypress (JavaScript).
Developed load and performance tests with JMeter.
Provided training and support for manual QA.
Achievement: 30% improvement in the stability of automated regressions.

Exploratory testing and initial automation with Ranorex.
Clients: Citibank, Santander Tecnología, Banco Hipotecario, Banco Comafi.

ACADEMIC TRAINING

Advanced Technological Degree in
Multimedia Communication
Tupac Amaru II | 2010 - 2013
Interpretation, transformation, and
transmission of information using
multimedia technologies.

CERTIFICATIONS

Liceo Cultural Británico (A2)
CoderHouse: JavaScript, Web FullStack

INTERESTS

Open to new challenges in QA Automation,
with a focus on efficiency, technical
collaboration, and continuous improvement.

SOFT SKILLS

Technical Leadership
Critical Thinking
Problem Solving
Effective Communication

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python
Frameworks: Cypress, Playwright, RestAssured
APIs: Postman, JMeter
CI/CD: GitHub Actions, Jenkins
Management: Jira, Azure DevOps
DB: MySQL
